The North Winds Gravel Classic, held on July 16, 2023, is a timed event set in the remote wilderness of Tug Hill.

RACOG UPDATES

- **University at Albany Policy Research Center** – April Roggio would like to come out to the economic visioning summit in April and do a short discussion group with RACOG at the May board meeting.
- **Digital Radar Signs** – The group has gotten four quotes. I have reached out to Safe Kids Worldwide to see if they still have a grant program. They have funded digital radar signs in the past. We haven't had much luck finding any grant programs for state or federal to cover them.
- **Promotional Video** – CGI gave us a first draft and provided a final draft. There were no changes suggested in the final draft, so they are in the process of getting the final video links completed.
- **RACOG Economic Visioning Summit** – The steering committee met on January 12, 2023. The notes from that meeting have been shared with the RACOG board. We are looking at having a meeting on February 9th or 10th. The summit is scheduled for April 27, 2023 at the Jefferson Lewis BOCES Howard G. Technical Center in Glenfield, NY.
- **Fort Drum Interns** – Christopher Barboza started on February 2, 2023. Kristle Hinola will be starting on March 24, 2023.
- **Associate Circuit Rider** – The RACOG board approved contracting out for an associate circuit rider to help with meeting coverage. It is a contracted-out position.
- **LED Lighting** – We are now approaching the closeout of the LGE grant from NYS DOS. Also, communities who had submitted for a NYPA Smart City Technology grant, can use those funds to basically help buy down their project, instead of doing cameras, etc.

- **Deferiet Solar/BOA Update** – NYSEDA will be at Deferiet's next meeting and Sarah Bullock will be giving an update on the BOA.
- **Wilna/Carthage Comprehensive Plan** – Matt Johnson from the NYS Tug Hill Commission recently presented to the village of Carthage board and will be presenting to the Wilna board at their next board meeting.
- **Economic Resiliency and Recovery Plan** – The towns of Champion, Wilna, and villages of Carthage and West Carthage recently undertook a economic resiliency and recovery plan with the MRB Group. The results of that plan should be coming out soon.
- **Community Choice Aggregation** – Lewis County is still looking for interested communities to take part in the Community Choice Aggregation. They have open not only to their municipalities, but also from other municipalities in neighboring counties that might be interested.

Town of Denmark Board,

On January 12, 2023 I contacted Scott Doyle about the louder than normal noise from the wind turbines near my house. I wanted to know how loud they were recorded at as it was horribly loud. The roar could be heard inside of house as well as roaring outside. He told me he contacted Burke, with the wind company, to get the reading and I was suppose to receive the info as well as the board . As of today I have not received anything. On this day I also heard from many town residents who live in many parts of the town about the very loud noise from the turbines. So it wasn't just me.

There a few questions that I don't believe that have ever been addressed. I would like to know who monitors the decibel levels that come from the turbines? Who keeps them in compliance? What happens when they go over the decibel levels they are approved for? It is very obvious that the ones that teeter right at the approved level during recent icing have gone over the approved levels. This has happened many times not just a one time occurrence. Who makes them stay in compliance? Are they fined, warned or any other actions taken? Or do we just trust them that they abide by the town rules established to control noise levels?

Sincerely ,

A handwritten signature in black ink, appearing to read 'S. Simmons', with a long, sweeping horizontal line extending to the right.

RE: Volunteer Firefighters/Ambulance Workers
Real Property Tax Exemption
KWB File #: 41439.0000

Dear Supervisor Doyle and Town Board Members:

New York State recently amended Real Property Tax Law §466-a pertaining to the above-referenced matters. Briefly, municipalities may adopt a Local Law or Resolution to provide volunteer firefighters and volunteer ambulance workers with a real property tax exemption of up to 10% of the assessed value of their residence within the municipality if the applicant resides in the municipality together with additional requirements. For instance, the municipality must establish a minimum service requirement between two (2) years and five (5) years of service to establish eligibility. The Resolution, or Local Law, must become effective prior to the next tax status date and the individual is required to apply for such an exemption prior to the status date.

With a municipality that already provides a measure of exemption from real property taxes, they may continue to do so if the municipality adopts a Local Law or Resolution to conform to the provisions of the new Law with three (3) years.

We enclose a copy of the notice New York State was required to provide to each municipality. Feel free to contact us with any questions you might have in this regard, including assistance with a proposed Resolution or Local Law to proceed, if interested.

Very truly yours,

Taxing jurisdictions that offer property tax exemptions to volunteer firefighters and ambulance workers must transition to a newly authorized statewide exemption within three years.

As the Chief Executive Officer of a taxing jurisdiction that may be offering a property tax exemption to volunteer firefighters and ambulance workers, you should be aware that recently enacted legislation, Chapter 670 of the Laws of 2022, has changed the applicable law and may require action on the part of your jurisdiction.

Generally speaking, the new law gives municipalities, school districts and fire districts throughout the State the option to provide a property tax exemption of up to 10% to volunteer firefighters and ambulance workers. Any such exemption would be valid only on property used exclusively for residential purposes. If a portion of a volunteer's property is used for other purposes, the exemption would be prorated accordingly. In order to be eligible for this partial exemption, volunteer firefighters and ambulance workers must live in the community served by their volunteer organization and meet a minimum service requirement of between two and five years, as set by the respective taxing jurisdiction. Additionally, at local option, a lifetime exemption may be provided to volunteers with at least 20 years of service as long as they maintain their primary residence in the county they have served. Taxing jurisdictions may also allow unremarried surviving spouses of eligible volunteers to retain the exemption.

The specific terms of the new exemption are set forth in new § 466-a of the Real Property Tax Law as enacted by Chapter 670 of the Laws of 2022, a copy of which is attached for your convenience.

It is important to note that, if your taxing jurisdiction has been offering a similar exemption for volunteer firefighters and ambulance workers under one of the pre-existing statutes (*i.e.*, current RPTL § 466-a through § 466-k), it must adopt a local law, ordinance or resolution to conform to the new Statewide exemption statute no later than December 9, 2025 (*i.e.*, three years from the effective date of Chapter 670; see subdivision 8 of the newly-enacted § 466-a). On that date, all of the "old" exemption statutes will be repealed.

We encourage you to discuss the implications of this new law with your municipal attorney.

Town/Village Supervisor/Mayor

Re: County Road Damage Local Law Opt-In
Draft IMA

Dear Municipal Leader:

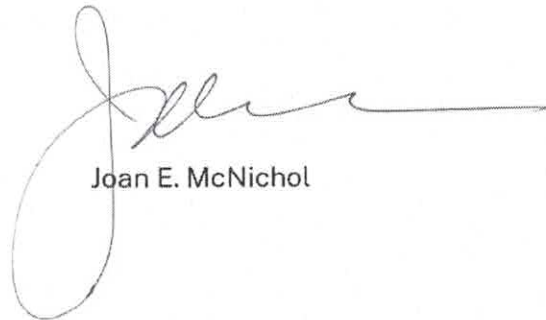

Last year the County adopted Local Law No 3-2022 (attached) pertaining to regulating and permitting special events on county roads, trails and/or on any town roads and property where the town or village has opted in to the County local law. In doing so, the County and Town/Village would execute the enclosed IMA wherein the County would reimburse for certain road material costs associated with damage as a result of the permitted motorized recreational activity.

I am contacting you as one of the municipalities who did not opt in to the County's law and proposed IMA to see if there is any interest at this time in your municipality to do so.

Please feel free to reach out to me to discuss further. As indicated above, I have taken the liberty of enclosing those relevant documents for your perusal.

Thank you for you time and Happy New Year.

Very truly yours,

Joan E. McNichol

In accordance with the provisions of General Municipal Law § 10, all deposits of the Town of Denmark, including certificates of deposit and special time deposits, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act shall be secured:
