Roll call vote recorded as follows:

Councilman Wadsworth	Aye
Councilman Fazio	recuses
Councilman Jones	Aye
Councilwoman Rowsam	Aye
Supervisor Doyle	Aye

Resolutions 141 of 2023 adopted 11.09.2023.

At this time Supervisor Doyle opened the Privilege of the Floor.

Tara Johnson spoke to the Town Board about the speed of drivers on NYS Rt 26 from the town line between Denmark and the Town of Champion south to the 40mph speed zone in Deer River. That section of the road is currently posted as a 55mph zone. Residents and businesses in the area have concerns about safety due to the speed and are requesting the Town Boards assistance in getting NYS DOT to study the traffic patterns in that area. Farney’s and Johnson Lumber both have employee parking lots on the opposite side of the road from their business and it is hazardous for their employees to cross the road. The Staab’s have several rental units located in that section of NYS Rt 26 and many have had “near misses” caused by speed and attempts by other drivers to pass them on the wrong side. Johnson’s Lumber has 50 log trucks per week delivering to the mill located in that area and those drivers have also had many near misses with speeders and/or inattentive drivers. Resident Sandy Oshier reported nearly being hit by a car on several occasions while trying to retrieve her mail from her mailbox.

The residents also reported that since the road has been repaved the average vehicle speed seems to be even faster.

Discussion was held. The Town Board encouraged those present to contact law enforcement to request additional patrolling in the area. Those in attendance asked the Town Board to consider sending a letter to NYS DOT to ask for them to reevaluate the 55mph zone and to erect pedestrian crossing signs near both Farney's and Johnson Lumber.

Councilman Wadsworth made a motion, seconded by Councilman Fazio, that Supervisor Doyle send a letter to Brian Reape of the NYS DOT asking for a traffic study of the area. Vote recorded as 5 aye and 0 no.

Tara Johnson, Ron Johnson, and David Johnson then spoke to the Town Board about notice that Johnsons Lumber has received from their insurance carrier. The business will eventually be required to show they either have a fire hydrant located near the property or they are able to store water onsite for fire suppression. Tara Johnson stressed that the business employes 65 people.

Discussion was held. The business is located approximately 1.2 miles from the end of the West Carthage water system. Approximately 20 parcels are in that corridor. Creating a water district would require an engineering study to even begin planning the project, an archaeological study, a search for funding, legal processes to create the district and then actual construction. This process could take years to accomplish. Any debt incurred in the creation of the district would be borne by the owners of the land the lines cross and with only 20 users that debt payment would potentially be very high annually due to costs that would be millions of dollars. Further discussion was held on the potential to install ponds on the property or even a small "water tower." The Village of Copenhagen has still not removed its old water tower that is no longer connected to its water system and may be interested in selling it, Supervisor Doyle suggested that the Johnsons contact Copenhagen to explore that option.

Councilwoman Rowsam suggested that the Johnsons reach out to the Lewis County IDA, Naturally Lewis, to see if they have resources that can help. The mission of Naturally Lewis is job creation and retention in Lewis County.

David and Sharon Johnson, Ron Johnson, Laurie Gleason, Tara Johnson, Sandy Oshier, Adam and Abigail Staab, and Reg Farney all exited the meeting at 6:37pm.

Supervisor's Report: Supervisor Doyle provided the Town Board with financial statements from North Country CPA's and NYCLASS. Interest Income \$47,576.79 has been earned on the money in the NYCLASS accounts.

Supervisor Doyle provided information about a meeting that was held with Supervisor's from several towns, County Officials, and Dylan Harris on 10.24.2023. County Officials will be putting forth resolutions to support private individuals joining a lawsuit against NY State to try and block the implementation of RPTL-575B which changes the way solar and wind energy projects will be taxed. County Officials have also said they will allocate another \$20,000 to the legal challenge.

Supervisor Doyle provided information from his meeting with CPA Scott Lawrence and Rob Company of Fourth Coast on the Direct Pay Option of American Recovery Act. The solar project being considered by the Town Board for the 3707 Roberts Road property (town offices and highway garage) is eligible for a 30% reimbursement of funds from this act. The Town would initially pay for the project, applying whatever grants they receive, including the NYSERDA grant that has been awarded, and using fund balance or ARPA money for the construction. After completion of the project the Town would apply for the 30% reimbursement from the federal government. Discussion was held on the information available online about the Direct Pay Option of American Recovery Act. The program is still being developed and the online tools are not yet available. The RFP quote submitted by Fourth Coast is valid until 11.16.2023 (30 days from when it was opened) and costs may begin to increase after that date. Town Board members expressed their concerns about moving forward without more clarity on the Federal reimbursement program. Supervisor Doyle will continue to look for information on the program and report back at the 12.18.2023 meeting.

Supervisor Doyle has also spoken with Planning Board Chair Kevin Gaines and Atty. Jim Burrows about required permits for the potential solar array. The Planning Board discussed it at their meeting as well and they are in favor of waiving the Denmark special permit process for the project. A SEQRA review would be required and building permits from Lewis County would also need to be acquired.

Supervisor Doyle also noted changes coming to the end of year reporting process for the town. The AUD Report (Annual Update Document) is being replaced with a new reporting system called AFR (Annual Financial Reporting).

Clerks Report & Correspondence: (continued from earlier in meeting)

Clerk Greene provided an update on progress towards complying with the NYMIR Computer Security requirements. Denmark has 11 dedicated emails and 8 of them are now using authentication apps as well as notification of external vs. internal emails. Complex passwords have been instituted on town owned computers used by the Town Clerk, Supt. Of Highways, and Town Supervisor. Advanced Business Systems has worked to find a tool that will provide the sandboxing, secure email gateway, and spam filtering required by NYMIR. A system called ProofPoint will allow us to comply. Installation of the system would be \$358.00 and then \$40.00 per month. Discussion was held. A resolution for this expenditure is included on the slate of resolutions.

The following correspondence was provided to the Board prior to the meeting:

- Letter from Henry van den Heever of NYMIR dated 11.01.2023, recommendations from his recent visit. Discussion was held and Supt. Mahar responded as follows:

Recommendation - Sign Inventory. Maintain an inventory of regulatory and warning road signs.

Supt. Mahar response – Limited signs on site, new signs available within 24 hours from Lewis County.

Recommendation- Children at Play Signs should be removed to reduce liability.

Supt. Mahar response – In process of removing signs.

Supt. Mahar response – Towns are exempt from this requirement.

Recommendation – Highway Dept. bucket truck needs to be inspected annually.

Supt. Mahar response – the inspection is being addressed.

Supt. Mahar response – Implemented logs in town vehicles 5 years ago. Also has GPS in vehicles to monitor plow routes.

- Letter from Eric Johnson AYSO Region 1674 Treasurer 11.6.2023, seeking funding support. Discussion held. \$500.00 available in 2023 budget for youth activities. A resolution for this expenditure is included on the slate of resolutions.
- Letter and materials from NYSTCA – Information for newly elected and continuing officials provided to the board.

Superintendent of Highways & Special Districts Report: Supt. Mahar provided his monthly Budget Report and Voucher Report to the Town Board. He updated the board on his department's activities including roadside mowing, placement of road tallies, and equipment readiness.

Further discussion was held on the GPS data from the town's trucks. Councilwoman Rowsam asked if that data could be used to address the concerns Mr. van den Heever has about the vehicle logs. Supt. Mahar responded that the recorded data is not stored long-term, and he believes the written logs are sufficient.

Discussion was held about debris in the road (mud, stone, etc.). If he is aware of an issue, Supt. Mahar contacts the landowner.

Old Business:

The horse hitch has been installed as are the new LED lights in the upper parking lot. Supervisor Doyle thanked the highway department for the installations.

No update was available from Northern Glass on window installation, from NYS on the status of the J-Cap grant, or the WQIP Grant.

New Business:

A letter from Volunteer Transportation Center or VTC has asked for contracts for the annual contribution the town makes to its organization. Clerk Greene worked with VTC to add language about when the annual contribution would be expected. The contracts were reviewed. Resolutions allowing for the signing of the contracts are included on the slate of resolutions.

The NYSLRS invoice for prepayment of the 2024 town contribution has been received. A resolution directing \$17,317.00 Charged to A9010.8, \$17,421.00 Charged to DA9010.8, \$15,883.00 Charged to DB9010.8 is included on the slate.

Discussion was held about labeling each fire hydrant’s flow capacity in the town water district. Supervisor Doyle has received the flow rating for the 19 hydrants and feels that to protect the water lines the capacities should be labeled. If the rings are ordered the fire chiefs of Castorland, West Carthage, and the Rutland Fire District would help install them. A resolution authorizing the purchase is included on the slate.

Discussion was held about purchasing signage plates for the office doors. Discussion was held. Clerk Greene will follow up with cost estimates and report to the board 12.18.2023.

Supervisor Doyle announced that the Town will be complying with the Secure Act 2.0 which changes contributions to NYSDCP 457b to accept ROTH contributions.

Discussion was held about a Countywide Shared Service Plan. Three public hearings will be held on the proposed plan. Items included in the plan are a portable radiation scanner for the solid waste facility, a centralized truck technician, a green waste tub grinder, Medicare Advantage program, a water project connecting Copenhagen’s Stoddard Road facility to the Carthage / West Carthage water system, loader mounted snowblower, a Real Property Office Assessor, and book de-binding equipment. Funds would come from State, County, and local governments.
