Meeting was called to order by Chairman Kevin Gaines at 7pm with the lead into the Pledge of Allegiance.

Discussion about the plan for Telecommunication Towers was performed with James Lavalle. James explained the plans for the towers. All members reviewed it with him using their Planning Board and Zoning Board of Appeal of the Town of Denmark books.

The first discussion was about the telecommunication tower on Plank Road at tax parcel No. 109.001-01-18.112 that is planned to be built. Discussed was where it would be and how the height would enhance customers services.

The second discussion was about the telecommunication tower on Route 26 at tax parcel No. 097.00-01-01.120 that is being planned to be built. This discussion was basically followed with the same information as the first tower's plans.

Debra Der asked if adding a tower would affect local people's service, due to this happening to them when a tower near them was put up near their home.

James Lavalle answered that he has never experienced this being an issue.

Pat Mahar also spoke that this also happened at his campground as well.

James Lavalle thinks this tower was built to extend the 4G and 5G. This causes towers to be also cut out people because it must work harder to extend coverage to so many in the area.

Mary Jones made a motion to accept the application for the Plank Road tower on tax parcel no. 109.001-01-18.112, this followed by a second by Debra Der.
