Councilmember Wadsworth made a motion, seconded by Councilmember Fazio, to accept the minutes of 06.17.2024 as prepared by Deputy Town Clerk Susan Kirch-Corey. Motion carried with all ayes.

Councilmember Fazio made a motion, seconded by Councilmember Jones, to accept the agenda for tonight's meeting. Motion carried with all ayes.

Public Comment: Jim Ostrowski from Allegiance Trucks attended the meeting at the request of Supt. Mahar to discuss the potential impacts of the 2027 EPA emission standards on the pricing of new trucks. It is estimated that the overall cost for trucks will increase by 20% once the new standards are in effect. Discussion was also held on build time. It takes 24 – 36 months for the truck to be ordered, manufactured and delivered. Supt. Mahar has received an estimate for the purchase of a 2026 Hx520 SFA 6X4 Chassis Allison for \$160,902.00 and an additional \$140,619.00 for a Viking Plow Package for a total cost of \$301,521.00 under the Onondaga County Contract #10914. Discussion was held on budgeting for the purchase. Supervisor Doyle believes the Town Board should split the cost over the 2025 and 2026 budgets.

Further discussion was held about the potential purchase of an additional truck. Mr. Ostrowski noted that the Town could “lease to own” over 3,4, or 5 years. Mr. Ostrowski was asked to return to the August 19, 2024 meeting of the Town Board to further discuss payment options.

Supervisor's Report

Supervisor Doyle provided copies of the North Country CPA financial reports to the Town Board prior to the meeting. NYCLASS interest income for June was \$6,882.09 and YTD interest income is \$40,599.77.

Supervisor Doyle updated the Board on the Water Quality Improvement Grant process for the salt storage facility. The Office of the State Comptroller (OSC) has still not approved the project. Supervisor Doyle has reached out to Senator Mark Walczyk's office for assistance in getting the OSC approval for the project. Supervisor Doyle has received the document list of what will be required for the Town to submit for the funds once approved by OSC. He has also contacted the Town of Potsdam about the process they have used for their Water Quality Improvement Grant. Potsdam is still waiting for the granted funds to be dispersed to them due to issues with their initial submissions.

Supervisor Doyle and Supt. Mahar met with the contractor for the project and have a plan for the base work that will be done by the highway department.

Supervisor Doyle and the Town Board discussed options for paying for the project while waiting for the grant money to be received. Supervisor Doyle has spoken to the Bank of Greene about funding scenarios. Denmark could take out a BAN for \$650,000.00 for 2 years, then we could “borrow up” for 1 year. This would allow for up to 3 years to be reimbursed by the State. The “borrow up” option would be a principle

amount plus interest, adding approximately \$40,000, in for a total of \$690,000. If the Town has not received the grant funds by the end of year 3, the financing would have to be switched to a BOND.

Councilmember Wadsworth offered the following resolution, seconded for adoption by Councilmember Fazio:

RESOLUTION __90__ of 2024: BAN Funding for Salt Barn Project

The Town of Denmark Town Board does hereby authorize Supervisor Doyle to work with Atty. Megan Kendall to secure the funds necessary for Salt Barn Project.

Clerk Greene provided the abstracts and vouchers to the Board for their review. Councilmember Jones asked about the milage for the DCO this month as it was higher than it has been. Supervisor Doyle reminded him that DCO Hess lives in Watertown, and she has to take any dog she picks up to the Lewis County Humane Society in Glenfield. Clerk Greene pointed out that the DCO responds to calls and more calls mean more mileage.

Clerk Greene was asked to reach out to Volunteer Transportation Center, Inc and ask them to have their request for funding to the town by September 3, 2024 for consideration in the 2025 budget.

Highway Department

Supt. Mahar updated the group on the activities of his department. They have continued to work on Ridge Road and have assisted other municipalities as the need arises. They have also assisted and will continue to assist Lewis County in cleaning up and repairing damage caused by last week's flooding in Lowville, Watson and New Bremen.

He has reviewed applications for the vacant highway position.

Further discussion was held on the highway department fleet of plow trucks. Three trucks were purchased in 2017. Supt. Mahar would like to purchase 2 trucks in the next year under the Onondaga County Contract #10914. One could be paid for over 2 years with budget allocations and the other could be financed under a lease to own program over 3,4 or 5 years. He noted that one of trucks still in use is a 1979 model.

Assessor

Assessor William Vargulick was in attendance to discuss an issue with the way two of the commercial solar projects on the East Road were coded on the tax roll and the date when the PILOT Agreement was signed by the Lewis County IDA / Naturally Lewis. In 2023 and 2024 tax bills were paid by the IDA. The PILOT was not signed until January of 2024. The PILOT will be in effect for 2025.

Discussion was held on NYS Senate Bill S967A which has been passed by both the State Senate and Assembly and is waiting for Governor Hochul's signature. The legislation amends section 924-a of the Real Property Tax Law by tying the delinquent tax interest rate to the prime interest rate. This will reduce revenues in budget line A1090 going forward.

Discussion was held about the occupancy rate at Deer River Estates. Assessor Vargulick believes that it is better to handle this during a revaluation then by doing "spot assessing".

Old Business

The solar array project continues. The project should be operational by the end of August 2024. Fourth Coast will assist the Town in setting up the direct pay enrollment.

Supervisor Doyle sent letters on behalf of the Town of Denmark Letters regarding the proposed new OSHA Requirements for Firefighter standards. Several other towns and Lewis County are also sending letters to express their opinion that the proposed changes, if implemented, will severely impact the participation of volunteer fire departments and create an additional expense for municipalities by forcing paid departments.

New Business

Discussion was held about the of a potential Denmark Water District #2. Councilmember Fazio made a motion, seconded by Councilmember Jones, as follows:

Minutes of 07.15.2024
Regular Monthly Meeting of Town Board
Prepared by Town Clerk Prudence L. Greene

The Town of Denmark will send letters to the owners of tax parcels within the proposed area to see if there is interest in a new water district. Vote recorded as 5 ayes. Motion passed unanimously.

Supervisor Doyle has provided department heads with budget worksheets to be completed and returned to him by 09.03.2024.

Supervisor Doyle spoke to the Town Board about issues with the front sidewalk. He has asked Tom Aubin to quote a price to patch the sidewalk and paint the exterior doors.

Supt. Mahar and his department will be repairing the driveway access to the water tower caused by recent rain.

Supervisor Doyle updated the Board on his work with Senator Mark Walczyk's office about the traffic study conducted by NYS DOT on State Route 26.

Discussion was held about the town website: Denmark.racog.org. Clerk Greene will be meeting with staff from RACOG to set up a meeting to work on ADA compliance issues on the site. Discussion was also held about the complaint form link on the website. The link does not seem to be sending the information to the Clerk's office. Clerk Greene will contact RACOG and try to get the issue corrected.

Being as there was no further business before the Town Board, Councilmember Jones made a motion, seconded by Councilmember Fazio, to adjourn the meeting. Vote recorded as 5 ayes. Motion passed unanimously.

Meeting adjourned at 7:31pm.
